

TABLE PURSUANT TO CT6.42# - YARDING/SKIDDING REQUIREMENTS (04/2003)

| <u>YARDING/SKIDDING REQUIREMENTS</u> | <u>PAYMENT UNITS</u> |
|--|----------------------|
| Tractor skidding, including mechanical harvest systems, shall occur on designated trails only. Use existing skid trails whenever possible. Unless otherwise agreed, designated skid trails shall average no less than 100 feet apart, with the objective of limiting detrimental soil conditions caused by skid trails, roads, and landings to a maximum of 20%. | 1 |
| Tracked equipment will not be allowed on paved surfaces. | 1 |
| No landing, decking, or skidding shall occur outside harvest units or in natural, non-forested openings unless approved by Forest Service. | 1 |
| In woods chipping is prohibited, unless a written agreement can be reached to limit impacts to soil resources and the Transportation system. This sale was designed for Mechanical Harvesting, with products removed as logs on conventional Log Trucks | 1 |
| All Cut-to length forwarder harvester equipment is restricted to approved trails only. Use existing trails whenever possible. Designated trails will be no closer than 50 feet apart, with the objective of limiting detrimental soil conditions caused by skid trails, roads, and landings to a maximum of 20% | 1 |
